From The Chicago Tribune.

The style is simple and effective; the plot natural, and of a deep, shiding, and yet PRESENT interest; the sim sensible, and the principles incursated generous without pretense, and pure without cast. The smi co of life are in the book, and the sunshine which creates whem. The frowns are there, too, and the causes which produce and keep them alive. We predict for this novel a wide success. It cannot fail to be generally read, and wherever read it will do sand!

From The N. Y. Evening Post.

This work is from the pen of aisaly hitherto but it the known in the world of letters but whis ex dell are exception and just application of the true and the beautiful in human che acter, are obviously of no ordinary kind. Although a book which will be classed among works of light fiction, it has a noble purpose, and inculcates some admirable lessons in a forcible and pleasing manner. By a series of incidents, well conceived and nu urally and gracefully woven together, it discloses the abounding wealth of the human heart, when animared and swayed by religious principle, and lays hare some of the sources of life's weetest joy, as well as ite darkets sorrows—sources of which mutitudes, even in this enlightened age, are profoundly ignored. It is caches also, what so many need to know—but do not yet—the bleaved ministry of suffering and of sorrow, and impresses the mader with the conviction that nothing is permitted to befull is here on earth which is not intended to promote our best interests."
